

PRIYADARSHINI COLLEGE OF ENGINEERING, NAGPUR

Department of Computer Science and Engineering

Year- 3rd year

Semester- 6th Semester

Mini Project

Name of Project Members :-

1. Ayush Thaware	135
2. Aarti Dandhare	201
3. Krunal Patle	229
4. Lokesh Rahangdale	230
5. Bhuvan Thakre	260

Topic Name :-

1. Eye View Traker For Online Examination
2. Automatic Time Table Maker
3. E Plastic Recycling System

1) (TITLE)

Problem Statement:

Body--→.

Goal: The Main aim is to

- ✓ Pt
- ✓ Pt1
- ✓ Pt2
- ✓ Pt3....

Methods: 1) how to use

2)

Summary: short Intro about mini project

For more refer 2nd page in this document

2) Automatic Time Table Maker

Problem Statement:

To make the time table for the official use for example :-Class Time Table, Exam Time Table, and many more. In this we only need to add the subject name respected to day, Time, and can take a backup of the timetable in case of any issues.

Goal: To make time table in efficient manner and interactive for user.

Method:

- 1) Taking Subject Name as input
- 2) Taking Class Room no. as input
- 3) Can apply different colors to the subjects.
- 4) Can schedule the subject as per the time needed.
- 5) To avoid the loss of data can use backup and restore technique.

Software Requirements:

- Windows 7
- SQL 2008
- Visual studio 2010

Hardware Components:

- Processor – Dual Core
- Memory – 1GB RAM

Summary: Timetable is immediately posted to all the Students/Parents and all the respective teachers of the institute once it is being updated by the administrative staff. Even we have gone one more step in our School ERP to give you a wow factor.
